Portfolio : [portofolio-asri.netlify.app/](https://portofolio-asri.netlify.app/)

---

I am an Information Systems student passionate about Data Science, with a strong focus on data processing, data analysis, and problem-solving. I am actively seeking internship opportunities in Data Scientist or Data Analyst roles, where I can contribute analytical skills, collaborate in teams, and apply data-driven approaches to real-world business and organizational challenges.

## Education

---

Ary Ginanjar University	Sep 2023 - Sep 2027 (Excepted)
Undergraduate Information System	
• Awarded a full scholarship for four years of undergraduate study	
• Served as a Secretary in the Business Department of the Student Executive Board (BEM)	
• Actively participated in data science-related competitions and analytical challenges	

## Professional Experience

---

PKM - Lecturer Information Systems	Oct 2025
• Delivered sessions on data processing and data visualization using Microsoft Excel	
• Taught core data visualization concepts, including chart selection and data interpretation	
• Mentored vocational high school students in applying data visualization to real-world cases	
• Guided hands-on activities in data cleaning, organization, and basic data analysis	
• Collaborated with academic teams to develop effective learning materials	
Data Analyst   Orionids Inkubator Bisnis, ESQ Business School	Des 2023 - Sep 2024
• Analyzed market trends to support student business strategies	
• Collected and managed data on student-owned businesses	
• Created data visualizations to track and evaluate business growth	
• Collaborated with teams to translate data insights into actionable strategies	
• Supported data-driven planning and improvement of student business initiatives	

## Competition Experience

---

Data Science Competition – Gelar Rasa UPN Veteran Jawa Timur	Oct 2025
<i>Team Leader   Python Competition</i>	
• Led a team in a Python-based data science competition within the FMCG domain	
• Performed data analysis including innovation radar, trend forecasting, and product cannibalization using Python	
• Assigned tasks based on team members' strengths and coordinated analytical workflows	
• Reviewed end-to-end analysis and validated results for accuracy	
• Delivered final data-driven insights, achieving Top 4 finalist placement	

**Founder & Team Leader - Agricultural Marketplace Startup**

- Founded and led an agricultural marketplace startup concept in a hackathon
- Defined the product vision, business model, and core features
- Assigned technical and data-related tasks to support research and analysis
- Designed marketplace features based on user and data-driven needs
- Led cross-functional collaboration, achieving finalist status

**Data Science Competition - ANFORCOM, Diponegoro University (2025)**

Aug - Sep 2025

**Team Leader - Kaggle Competition**

- Led a team in a text classification task mapping data into 9 pillars
- Built and evaluated an IndoBERT-based model to classify tweets into Astacita pillars
- Performed tweet data preprocessing, including tokenization, normalization, and stopword removal
- Assigned tasks and reviewed end-to-end analysis to ensure model quality
- Improved leaderboard performance through model tuning and ensemble optimization

**Statistic Infographics Competition - Satria Data KEMENDIKBUDRISTEK**

Aug - Sep 2025

**Team Participant as Data Analyst**

- Collected and analyzed provincial-level student education data using statistical methods
- Performed data processing and visualization using the R programming language
- Created charts and infographics to communicate data-driven insights
- Contributed to a data-driven analytical essay on national policy issues

---

## Organizational Experience

**Student Executive Board (BEM) – Business Department**

Mar 2025 - Jan 2026

**Secretary**

- Managed administrative documents, meeting minutes, and official correspondence
- Coordinated schedules and supported departmental activities and programs
- Assisted in planning and organizing business-related events and initiatives
- Collaborated with team members to ensure smooth communication and execution
- Supported documentation and reporting for departmental programs

**Asia Pacific Youth Empowerment Summit 2025/2026**

Juli 2025 - Jan 2026

**Health Division Member**

- Participated in organizing and supporting health-related programs and initiatives
- Ensure that each committee receives health training
- Assisted in data collection, documentation, and reporting for health-related sessions
- Supported communication and coordination within the health division
- Contributed to the successful implementation of summit activities

---

## Additional Information

- **Hard Skills:** Machine Learning (Python), Data Modeling (SQL), Data Analysis (Tableau, Power BI, Excel, R Language)
- **Soft Skills:** Communication, Teamwork, Leadership, Public Speaking, Problem Solving
- **Sertifikasi:** Data Classification & Summarization | IBM SkillsBuild & Hacktiv8, Data Science | Bisa AI, Data Engineer | Dibimbing, Data Science With Python | DQLab
